

## Scott's Transport Site

### PRESS RELEASE

DATE: November 2019

SUBJECT: Technical Changes

---

I'll start with some housekeeping. The .tk domain name has now been discontinued. Please use [www.scottstransportsite.co.uk](http://www.scottstransportsite.co.uk) going forward.

There has been some behind the scenes technical changes this month. I've have been running a trial with a new hosting provider, 121hosting.net, with a view to reducing the costs of running the website. As things stand, I'm currently paying around £70 per year to host Scott's Transport Site and my portfolio of other wbesites. This is funded entirely by myself, and in order to ensure the future of my websites, resources need to be utilised in a cost effect manner.

As part of the trial, I have sucessfully migrated Scott's Transport Site over to the new host. The email address for the website has also migrated. As a backup, I've left a copy of the website on the old server, so readers should always have continuing access throughout the trial. Updates will continue as normal, but these will only be uploaded to the new server, so you may at times see an older version of the website if you are directed to the older server.

I have noticed that the photo gallery appears to have stopped working following transfer to the new server. This section will remain online, but in the meantime will not be updated. When time allows, I will start work on improving this section. If you spot any other issues on the website, feel free to drop me an email (address below), and I will look into the problem.

Once again, thank you for continuing to read Scott's Transport Site.
